DEPARTMENT OF EDUCATION  
ACADEMIC YEAR 2021- '22**

**FRESHER'S DAY  
"IT'S TRIVIA-ISH"**

DATE: 23.08.2021

VENUE: Microsoft Teams

TIME: 10.30 AM- 12.30 PM

“It’s Trivia-ish”, the much-awaited Fresher’s Day to welcome the first-year students (2021-’25 batch) was organised on August 23<sup>rd</sup>, 2021. The event though conducted online saw no limit to fun and entertainment. There was a remarkable response of over 90 freshers who stayed lively and vibrant throughout the event. Riya Suresh and Dhriti Bathija were the hosts for the day.

The event began with the presentation of a welcome video made by the members of the B.Ed. Association. The video featured a short tour of the campus hot spots and a note of dedication from the senior batch students. Then the games began with the preliminary round of questions from Current Affairs, Media, General Knowledge, Sports, etc. asked to the participants.

The completion of the preliminary round was followed by the streaming of a recorded dance performance by the members of the B.Ed. association. The dazzling dance performance was

an amalgamation of songs from various languages and cultures to highlight the rich ethnicity and diversity of our student community. This was followed by announcement of the names of participants who qualified to the final round of “It’s Trivia-ish”.

The final round of game, “Spin the Wheel” was conducted through a software which enabled the host to virtually spin a wheel with different categories of questions. The participants were asked questions from the category the pin stopped at, escalating the element of surprise.

Before announcing the results of the final round, a short video on the past events and activities on campus was presented. The event came to its culmination with the announcement of the winners who were congratulated, and all the participants were appreciated for their efforts. The winners of the game were Lalitha Shree C. P, Shreyaa Srikanth, and Trishika A. were the first, second, and third place winners respectively.

Altogether the event matched the expectations and enthusiasm of the students and the efforts paid off. We look forward to conducting more of such events by the B.Ed. Association throughout the academic year.
